## Advances in Altos del Golf

During the months of June and July landscaping was done on the islands on the boulevard in front of Altos del Golf under the supervision of the landscape company Green Plan, associated with the firm Zurcher. Along with the royal palm trees a hedge was planted made up of garlic, blue grass and shells surrounded by a chain of chefleras and ending on each side with lilies, lush pandanus and agaves.

In early September, we finished the installation of an automated watering system for the internal common areas which was done by the engineering company Durman to assure the freshness of the flowers and gardens during the summer.

General Manager, Leonardo Pinto, said that next month they will begin construction of the guard house which will have two levels and be situated at the entrance of Altos del Golf and will have stone walls and pergolas. The project will be finished by 2012 with the entrance being landscaped and having trails and parks in the condo areas.

Lots are still available and are being offered at special rated from \$300 per square meter. To obtain more information please contact our advisors, Carmen Maturana and Sookhee Sequeira at 2282 9222 Ext 2.

## OUR SELECTION OF LOTS

- 403** measures 821.77 with 24 meters of frontage for **\$250.640**
- 436** measures 1.004.62 with 21 meters of frontage for **301.386**
- 419** measures 1.097.81 with 38 meters of frontage for **\$334.832**
